Κατασκευάζονται από ανοξείδωτο μέταλλο (inox 316), το οποίο σε συνδυασμό με τα ανάλογα κρύσταλλα βιτρώ ή χυτό γυαλί, αποτελούν ότι πιο μοντέρνο έχει να επιδείξει ο χώρος τα τελευταία χρόνια.

 Series of panels with combination of inox detail, cover the needs of the market for something new, modern for the main entrance door of your building. They are manufactured by stainless metal (inox 316), which in combination with the crystals from vitro or fused glass, is the most modern product that has been presented all these years.
